Making the Quilt

- The star blocks use half-square triangles (HST). Use your favorite method to make HST that finish 3", or follow these directions. Squares that are cut 4" will be trimmed after stitching. Cut the squares 3⅞" if you do not wish to trim later. Draw a diagonal line on the wrong side of the lighter 4" squares. With right sides together, position the marked square on top of a second square. Stitch ¼" on each side of the diagonal line (Diagram 1). Cut apart on the drawn line. Press the seam allowance toward the darker fabric. Trim the HST to 3½" if needed. Make 2 HST this size for each star block, referring to Diagram 1 for the number needed of each fabric combination.
- The center of each star block is made with 4 HST that finish 1½" square. Refer to Step 1. Cut 2½" (2⅜") squares to make the number of small HST in the fabrics shown in Diagram 2. Trim the HST to 2" if needed.

Faithful Flag Quilt

- The star blocks use pieced units made with a stitch-and-flip method for the star points. Draw a diagonal line on Fabrics R, S, and T 2" squares. Stitch on the marked diagonal line. Cut away the excess fabric. Press the corner up. Repeat this step on the adjacent corner (Diagram 3). The star point unit should measure 3½" square. Make the number of units in the fabric combinations as shown for each star block.
- Referring to star block 1 diagram, arrange 2 large HST, 4 star point units, 2 squares 3½", and 4 small HST for the block centers. Rotate the fabrics as shown to duplicate the design. Stand back to be sure that all the parts are correct, noting that each Fabric R patch in the center HST touches a Fabric R star point. Likewise, Fabric S patches touch, as well as Fabric T patches. Once you are satisfied that the design is correct, join the patches and units in 3 rows. Finally, join the rows. Make the number of star blocks in the combinations as shown.

5. Arrange the appropriate log cabin strips around a center Fabric B or E 3½" square. Join the strips to the center square in a clockwise direction. Make 15 Log Cabin 1 and 12 Log Cabin 2.
6. Choose either the vertical or horizontal layout. On a design wall or flat surface, refer to the chosen Quilt Diagram and position the blocks in rows. Note the rotation of all blocks. Looking through the wrong end of binoculars or through a camera will help you identify any out-of-place block. Once you are sure of the design, join the blocks into rows, and then join the rows.
